

RMS-Kiosk Express Order for Corporate & Hospital Cafeterias

Customer Activated Ordering System

RMS-Kiosk in a busy hospital cafeteria

Employee Benefits

- » Increases employee satisfaction
- » Increases employee productivity
- » Employee saves time by not waiting in line
- » Ordering food becomes a pleasure

Cafeteria Benefits

- » Speeds up order taking time
- » Reduces ordering lines
- » Decreases labor costs with fewer order takers
- » Increases number of transactions
- » Reduces loss of business - discourages staff from going to nearby restaurants due to long ordering lines
- » Increases sales through suggestive selling

RMS-Remote Online Ordering

RMS-Remote is an quick and easy way for employees to order meals from their desk. Once they reach the cafeteria, their food is ready. They can just pick up their orders and go to the cashier, unless they have already paid online!

RMS-TOUCH supplies a **turnkey system** ready to be connected to your **Intranet** system or to your high speed Internet connection, should you wish employees from the outside to place online orders. Online orders print at your kitchen's remote printers (grill, pizza, salad...) just like kiosk orders, ready to be picked up.

RMS-TOUCH™ and RMS-Kiosk™ are registered trademarks of Adler Microsystems Corp.
